

PORTAGE LEVEES TO GET \$20,000

**Bill To Improve the Wisconsin River Levees
Passes Assembly.**

FOR A TAX ON VESSELS

**Primary Election Bill Reached
the Lower House Today—
Consideration at Once.**

GOVERNOR VETOES TWO BILLS

Madison, Wis., April 16.—The bill exempting notaries from the restriction of the anti-pass law, which it was hoped to amend so as to include sheriffs and police was killed by the assembly today 7 to 35.

The bill provided an appropriation of twenty thousand dollars to extend and improve the Wisconsin river levee at Portage passed the assembly.

The Mills bill taxing vessels three cents a ton was concurred in by the assembly under suspension of the rules in order that vessels may be registered before May 1st.

BABCOCK ON PRIMARY BILL.

The Third District Congressman Criticizes the Stevens Bill.

Madison, Wis., April 16.—The Hagemaster bill which was passed by the senate in place of the Stevens Primary election bill, was received last evening in the assembly and was referred to the committee on privileges and elections. The committee will probably meet today to take up the bill and it is expected that a report will be received before the end of this week.

Congressman Babcock was here yesterday and discussed the primary election matter at some length and gave it as his opinion that the Hagemaster substitute was a fair compromise, though he would amend it in one respect. He thought that there was some objection to the optional clause and that it would have been better to have made it mandatory. Otherwise it was all right. He thought it would enable the people of the state to see how the primary election idea would work.

On the Stevens bill Mr. Babcock's views tend to substantiate the claim of the opponents of the bill, that it would give a candidate with a machine backing a big advantage over other candidates. Mr. Babcock has been in congress many years and is, of course known to every man in his district. That acquaintance would operate to his advantage under the Primary Election law.

Speaking of the subject he said: "So far as I am personally concerned I was satisfied with the Stevens bill. I could secure a re-election under it easier than under the caucus and election system. I have been in congress so long that I could work my district from Washington with ease, through the various agencies that I could control."

"Under the bill I could have fixed things so that half a dozen candidates could not have prevented my nomination. So I was satisfied with the bill as it stood. As a compromise, the Hagemaster bill would have been all right it seems to me, if it had been mandatory instead of optional. I think the method of election should be uniform. It does not seem right to have one county operating under a primary election law and another under the old system."

More Bills Are Vetoed.

Madison, Wis., April 16.—Governor La Follette last night sent two bills back to the assembly without his approval. They were the Babb bill authorizing towns to vote aid in the erection of wagon toll bridges over

navigable rivers and the education committee bill, authorizing Joint School District No. 3 of the towns of Summit and Oconomowoc in Waukesha to borrow money. Both vetoes were sustained.

The senate held only a brief session and laid its calendar over until today. Senator Jones offered a joint resolution authorizing the two committees on state affairs to co-operate with the superintendent of public property and draw a bill to provide for a ventilating system for the capitol.

French-Russian Alliance.

Brussels, April 16.—The Petit Bleu states, that Prince Louis Napoleon, brother of the imperial pretender to the French throne, now a major general in the Russian army, has been married to Grand Duchess Helene, daughter of the Grand Duke Vladimir, uncle of the present czar.

Patrick Held for Murder.

New York, April 16.—Justice Jerome this morning handed down a decision in the case of Lawyer Albert T. Patrick, accused of the murder of William M. Rice, aged seventy. He holds Patrick to the grand jury on the charge of murder.

RETURN THE FLAGS TO THE CAPITOL

**Impressive Ceremony at Madison This
Afternoon—Big Escort from
the Library Building.**

Madison, April 16.—The historic battle flags carried by the Wisconsin regiments in the late wars were transferred from the State Historical library to the capitol this afternoon with imposing ceremonies. These flags were taken from the capitol at the time of the completion of the palatial library building, but upon the petition of the old army veterans the legislature passed a law requiring their return. The University regiment and band and the Madison company of the National guard escorted the local Grand Army post, who carried the flags they followed in battle. At the capitol ceremonies were conducted consisting of the singing of national hymns and an address by Senator O'Neil on "Nationality and Patriotism."

The first championship baseball game of the season will take place on Thursday at Camp Randall between the "Varsity and the strong University of Michigan nine. Michigan is especially strong this year, and the Wisconsin fans are not at all enthusiastic over the prospects of a Badger victory.

Charles Noble Gregory, associate dean of the law school and professor of criminal and probate law, has accepted the position of dean of the law school of Iowa State University. He will make the change at the beginning of the next college year. A salary of \$4,000 a year is attached to the new position. Prof. Gregory is recognized as one of the foremost authorities on the subjects of probate and criminal law, and the Wisconsin law school suffers a severe loss in his departure.

Prof. Albert Bushnell Hart of Harvard University, will begin a remarkable series of lectures this afternoon. He will discuss the Monroe Doctrine as originated by President Monroe and developed and enlarged by its subsequent application to diplomatic questions by such notable administrators as Polk, Webster, Blaine and Olney.

The biennial legislative ball will be held in the University gymnasium on Thursday night.

PRESIDENT STEYN WILL NOT GIVE UP

Capt Town, April 16.—The facts in regard to President Steyn of the Orange Free State are that, instead of wanting to surrender, he is reported to have summoned a congress of the Free State burghers which met near Boschoff, in the western part of the Free State, not far from Kimberley, and had himself re-elected president, his term having expired. The plague continues to claim many victims here.

MONSTER LABOR WAR LOOMING UP; UNION MEN TO FIGHT STEEL POOL

Workers Threaten to Tie Up Every Concern Controlled by the Billion Dollar Trust—May Involve the Entire Country.

Pittsburg, Pa., April 16.—A battle to the death between the unions of the country and the United States steel corporation, the billion dollar combine organized by J. Pierpont Morgan, is in prospect. The discharge of seven men because they joined a union is the cause of what now seems likely to become the most important struggle between labor and capital in the history of the world.

If the strike comes, as now seems certain it will involve practically the entire steel industry of the country. Mills east and west will be tied up, even employees of non-union establishments, it is claimed, given pledges that they will stand by the Amalgamated Association of Iron and Steel Workers.

Recognition of Union the Issue.
The question of wages is not involved in the controversy, it being solely a matter of recognition of the union.

The trouble began at the De Wees wood plant of the American Sheet

Steel company at McKeesport, where 600 men are now on a strike.

President Schaffer in addressing the strikers at McKeesport today, announced that, unless the company agreed to reinstate all its discharged employees and recognize the union, he would call out all the union men in mills controlled by the United States Steel corporation.

Threatens to Close Every Mill.

"This fight is one to a finish between the Amalgamated association and the billion-dollar trust," said Mr. Schaffer. "The life of our union is at stake. The constitution of the association contains a clause which says that in case of a company refusing to recognize the union all the plants owned by that company shall be called out. That clause will be enforced. Every mill owned by the billion-dollar trust will be shut down by the end of the week unless the American Sheet Steel company concedes the right of its employees to join the union."

GERMAN KAISER TO FORCE A FIGHT; EFFORT TO PROVOKE THE CHINESE

**Troops Are Moving to the Front—Heavy Detachments
Leave Peking with the Intention of Engaging Prince Tuan and Capturing Passes**

Peking, April 16.—The war rumors in circulation during the last ten days have been reduced to a few concrete facts. These facts will go to demonstrate anew what everybody knows, viz.: that the Germans are spoiling for a fight.

Five hundred German cavalry with much ammunition left for Nankow Pass this morning. There they are to await the much-heralded Mongolian hordes commanded by Prince Tuan and General Tung Fu Siang.

A German brigade of 4,000 men at

probably intended to take possession of other passes leading into Shan Si province and to provoke battle with the Chinese if possible.

Li's Request of Gen. Chaffee.

Peking, April 16.—Li Hung Chang has applied to General Chaffee to leave behind when he departs Captain Tillson and a sufficient number of men to police the Chinese city, as the Chinese earnestly desire their retention fearing that the district will not be well looked after when controlled by other foreigners.

An expedition consisting of 5,000 German and 3,000 French troops will leave Pao Ting Fu tomorrow to drive from the province several thousand Chinese who refuse to obey the order of Li Hung Chang to keep to the boundaries already arranged.

May Cut Indemnity.

Berlin, April 15.—It is officially confirmed here that the United States has made a proposition to the powers to fix the total Chinese indemnity at \$40,000,000 (\$200,000,000), coupled with the condition that the payment be made immediately. German officials point out that the amount named would require a heavy scaling of the different claims, but that the proposition is practicable and open to discussion, owing to the clause requiring cash payment.

EMPEROR OF CHINA.
Pao Ting Fu leaves that place tomorrow for the west. The purpose of the expedition is not announced, but it is

RETURNED FROM A CALIFORNIA TRIP

**Mr. and Mrs. W. F. Palmer Had a
Number of Unpleasant Experiences
on Their Winter Trip.**

Mr. and Mrs. W. F. Palmer of this city, who have been spending the winter in California, were in a big railroad wreck at San Miguel, Cal., a few days ago, but fortunately escaped without serious injury. All of their baggage was destroyed by fire, several ears being burned. They were on their way home and had their trunks with them so that all of their clothing except what they were using on the journey was destroyed. A sample lot of George S. Parker fountain pens was also among the property destroyed.

Mr. Palmer and wife have had several unpleasant experiences during their winter's pleasure trip. Mr. Palmer is just recovering from the severe attack of blood poisoning which he suffered some time ago. The poisoning deprived him of a good share of the skin with which nature clothed him and which peeled off generously and now the railroad has made way with his clothing, including a pair of striped trousers which were Mr. Palmer's especial pride. It would seem that the genial president of the Parkers Pen Co. might be excused if his views of life in the far west should become slightly tinged with cynicism.

Mr. and Mrs. Palmer were expected home on Saturday of this week, but this accident will probably so delay them that they will not reach home before the first of next week.

Parents and teachers are especially urged to attend the physical culture exhibition to be given at the High school gymnasium next Thursday evening under the auspices of the School Art auxiliary.

PRESBYTERY HELD AT REEDSBURG

**Rev. and Mrs. I. T. Henderson Attend
the Spring Meeting of the
Madison District.**

Rev. and Mrs. J. T. Henderson left this morning for Reedsburg, Wis., to attend the spring meeting of the Presbytery of Madison which opened its session in the Reedsburg Presbyterian church this morning and will conclude Thursday evening.

Rev. Henderson has two parts on the program assigned to him. During the ministerial institute this afternoon he had the discussion on "How to Care for the Young Convert" and at the popular meeting tomorrow evening he has been chosen to give one of the main addresses. His subject will be "The Spiritual Outlook."

During the session among the business transacted will be the election of a moderator, a position which is now filled by Rev. T. T. Creswell, of Beloit.

Mrs. Henderson has gone to Reedsburg especially to attend the annual meeting of the Woman's Presbyterian society which will be held tomorrow.

Mrs. A. A. Jackson will also attend this meeting, the two ladies being the representatives of the Woman's Missionary society of the Presbyterian church of this city.

Robert Airis will be the layman representative of the church to the meeting of the Presbytery. He will go to Reedsburg tomorrow.

About three weeks ago Edward Ponicheba had the misfortune to run a copper wire into the first finger of his right hand. The injury resulted in blood poisoning and it was found necessary to amputate the finger to save the hand. The operation was performed yesterday morning by Drs. Mills and Palmer.

GEN. A. C. MCCLURG IS DEAD.

A War Hero and Head of a Big Book Store.

St. Augustine, Fla., April 16.—Gen. Alexander C. McClurg of Chicago died here from Bright's disease, after a long period of ill health. His wife was at his bedside at the time of his death. Gen. McClurg, as head of the great book publishing house of A. C. McClurg & Co., had for years been one of the leading citizens of Chicago. His death removes a man universally respected. Gen. McClurg did more, perhaps, toward making Chicago a literary center than any other man in it. Ogden McClurg, now a student at Yale, is the only child. Gen. McClurg took part in the civil war, entering as a private soldier and returning home with the rank of brigadier-general by brevet. To Gen. McClurg is largely due the organization and present effectiveness of the Illinois National guard. Gen. McClurg at various times served as president of the Chicago Commercial club, the Chicago Literary club, and as vice-president of the University club of Chicago. He was vice-president of the Chicago Historical society and one of the trustees of the Newberry library.

BELOIT COUNCIL COMES TO REASON

**Judiciary Committee Instructed to Prepare an Acceptable Electric
Railway Franchise.**

Beloit, Wis., April 16.—At the meeting of the common council held last evening it was decided wisely to grant the franchise for the interurban railway.

The council advised the judiciary committee to prepare a franchise that would meet the approval of both the citizens and those who are anxious for the franchise.

The city feels forced to grant the franchise now. The first trouble in regard to it was due to the West Siders.

MANY APPLICANTS FOR MAYNE'S PLACE

Board of Education Now Has Nineteen Applications for Superintendent of Public Schools.

If the board of education finds it a difficult task to secure a superintendent for the schools it will not be for lack of applicants. Applications began to come in as soon as it was known that Supt. Mayne had been offered the position at Ishpeming, Mich. When it was announced that he would accept letters began to pour in in a steady stream until S. C. Burnham, clerk of the board of education now has nineteen letters on file. Indications are that before the board is able to select Supt. Mayne's successor Clerk Burnham will be flooded with letters from men who would like a chance to direct the Janesville schools.

RIPLEY ON STAND IN DEFENSE.

**Says He Conveyed Wrong Impression to
Bradley and Yost.**

Frankfort, Ky., April 16.—Captain Garnett D. Ripley took the stand today, being the first witness for the defense in his trial on the charge of complicity in the assassination of William Goebel. He did not deny the testimony of former Governor Bradley and Judge Yost concerning the conversation he had with Governor Taylor on the day before the murder of Goebel, but said that, while he thought they were substantially correct in their statements, he had failed to convey to them the impression he had intended. Ripley's version of the story is as follows: "Taylor said to me: 'Some irresponsible fool or crank is likely to kill me or kill Goebel and cause a riot around here in which there will be many lives sacrificed.' I told him I did not think this would occur, and went on talking to him about my company, for which I was getting equipments. 'My God,' said he, 'haven't you got that company ready yet?'"

Mrs. J. F. Sweeney went to Chicago on the 10:10 train this morning.

HILL CANNOT GET MILWAUKEE ROAD

He Has Secured the Burlington for an Eastern Connection.

BIG RATE WAR LIKELY

**Roswell Miller Says His Road
Has Nothing to Fear
from Combines.**

EXTENSIONS WILL BE MADE

Chicago, Ill., April 16.—Roswell Miller, chairman of the Board of Directors of the Chicago, Milwaukee & St. Paul railroad company, asserted today that the negotiations looking to the purchase of his company by James J. Hill were off, and would not be renewed and that there was no doubt that Hill had obtained control of the Burlington. Asked about the St. Paul deal Mr. Miller said:

"Hill Has Got the Burlington."

"There was a time when it looked as though Mr. Hill and the interests associated with him would obtain the road, but that time is passed and negotiations will not be renewed. While I am not officially acquainted with the facts there is no doubt in my mind that Mr. Morgan and Mr. Hill have acquired the Burlington. With the Burlington deal, E. H. Harman, contrary to general opinion, has nothing to do. It is distinctly a Morgan-Hill deal and that is why the Erie figures so prominently in it."

"Do you apprehend any ill effects for the Milwaukee by reason of the new alliance?" was asked.

Local Business Pays Dividends.

"Certainly not. What has the Milwaukee to fear? The Great Northern and Northern Pacific deliver considerable business to the Milwaukee and get a good deal from us. In my judgment it would be simply idiotic for northern lines to make any discrimination between their connections. It would be foolish and Mr. Hill is too wise to attempt such a move. In any event the St. Paul would be in a position to protect its interests and would undoubtedly do so. There is never anything in this talk of running a system entirely independent. It cannot be done for conditions cannot be ignored. Furthermore, the Milwaukee is so peculiarly situated that it does not depend for its revenue upon through business. It's local business is what pays the dividends."

Will Not Block Extension.

"Is it true that J. J. Hill owns one-sixth of the Milwaukee stock and is using it to block extension moves by the Milwaukee?"

"There is not a word of truth in the statement and it was never made by our agent to the Wisconsin legislative committee. So far as I know, Mr. Hill does not own a dollar of Milwaukee stock."

Rate War Is Likely.

One of the so-called weak lines operating between Chicago and St. Paul has given official notice that the stronger roads running between the two cities must at once abandon all of their fast trains, or all association ties will be cut and a rate war begun. This is one of the most important moves made in the northwestern field for years and means that the Milwaukee, the Northwestern and other systems operating extra fast mail trains with sleeping car and coach attachments, must withdraw these flyers or suffer the consequences.

Wide Awake lodge of Milton took possession of the Good Templars' hall last evening and rendered a most interesting musical and literary program. Light refreshments were served by the ladies of the Janesville lodge after which the balance of the evening was spent in playing games of various kinds.

CAIN HAD A MANIA TO BE A COWBOY

**Juda Young Man Sentenced at Monroe Yesterday to
the Green Bay Reformatory.**

Monroe, Wis., April 16.—Delta D. Cain, one of the First regiment, Wisconsin volunteers, who was critically ill from typhoid fever while on duty at Jacksonville, Fla., during the Spanish-American war, was yesterday sentenced to an indeterminate term of not less than one year nor more than three years in the state reformatory at Green Bay by Judge Becker.

Cain was recently seized with a mania to be a cowboy. He ordered an outfit from a Chicago firm costing \$156, and after he was notified of its arrival C. O. D. at the depot of the Chicago, Milwaukee & St. Paul company at Albany, he entered the depot and stole it. He wore it as he drove about the southern part of the state, going as far as Dubuque giving cowboy exhibitions.

The outfit consisted of a \$45 saddle, a lariat, stirrups, bridle, Winchester rifle, two 45-calibre Colt revolvers, leather coat and boots and a highly ornamented cowboy hat. He was wearing the coat and boots when he was arrested by Detective Bob Wasson of the Milwaukee road and Marshal Blunt of this city. Cain is the son of the Rev. L. F. Cain of Janesville and Winifred Pengra of Madison is his guardian. He is twenty years of age and has a wife and child.

At the time of his illness his father went to Jacksonville and made bitter complaint of the treatment that his son was receiving to General Fitzhugh Lee and the occurrence was widely published. Cain is from Juda and is a member of Company H of this city. It is believed that his mind was weakened by his long and severe illness.

SPLENDID TEST BY THE WISCONSIN

**New Battleship Returns to San Francisco After a
Successful Trip in Magdalena Bay.**

San Francisco, Cal., April 16.—Captain Ruter of the new California battleship ship Wisconsin, arrived from Magdalena Bay thoroughly pleased with the performance of the vessel, and with the record of his men. The ship proved herself a perfect sea boat, and in delicate evolutions in Magdalena Bay excelled any heavy craft built yet by the Union Iron works. On the return trip with only six boilers the vessel made eleven and a half knots. The target practice showed the crew possessed a very high average of crack marksmen. Every gun was fired and interesting results were obtained. The 13-inch guns were fired,

one with brown and the other with smokeless powder. The concussion when the thirteen inch guns were fired was terrific. It broke the panels in the captain's cabin and upset a heavy desk chair. The carpenter who was in a distant part of the ship, had his hat blown off and was carried six feet by the concussion of the air.

On shore outlines of a warship were traced in white on a cliff, and the practice showed great accuracy at from 3,600 to 3,400 yards. In sea and shore practice 137 men proved to be first-class marksmen and 156 second-class out of a crew of 444, which is a very high average.

AMUSEMENT NOTES

This will be Miss Held's farewell appearance as "Anna" in her merry musical farce "Papa's Wife," which is to be presented for an engagement of one night Friday, April 26, at the Myers Grand. Miss Held is one of the most successful actresses upon our stage and is now classed as a clever musical comedienne.

One of the very pleasant events in theatricals of the present season will be the appearance of John Griffith at the Myers Grand on next Thursday night, when he will present Goethe's idyllic pictorial sermon, "Faust," with Mr. Griffith in the role of Mephisto. Faust well played appeals to the intelligent classes and is one of the best dramatic works upon the stage.

The presentation of Quo Vadis at the opera house tonight should draw a large house. It is a production once seen never to be forgotten; a play in which the audience live the scenes with the actors, and everything is forgotten in the keen interest felt.

BACHELORS' CLUB OF ROCK PRAIRIE

The Organization Will Put Up a Building This Summer—A Flourishing County Town Society.

The Bachelor's club of Rock Prairie met last Friday evening at the home of A. J. Barlass. This being the last meeting of the season, every member improved the opportunity of having a good time and came.

Owing to the increasing tendency of the young men for leaving the Prairie for city life some of the older people thought something might be done to make the country more attractive to the aspiring youth.

After much discussion of proposed plans, one was at last agreed upon, which will be a practical and worthy undertaking.

It is this. The club will build this summer what will be known as its club meeting house. This as proposed, will include many of the privileges of the city Y. M. C. A. There will be bath rooms, a reading room, room for games, and two or more reception rooms where the club will hold its meetings. Will move part of the Society Library to the building, take some magazines and farm papers interesting and instructive to the grangers.

The treasury funds and subscription to the building already amount to \$375. It is not intended to build anything very costly, but something homelike and cosy where the men may spend their evenings. It is thought the monthly dues will pay running expenses including light and fuel.

Two building spots have been offered free. One on D. J. McLay's corner, the other opposite Thos. Clark's residence. Either location would be very acceptable, and we have only to thank the giver and leave the final decision to the building committee, consisting of George McLay, John Hamilton and David Clark.

A committee, Frank Clark, George Mawhinney and Andrew Barlass were instructed to arrange for a home entertainment to be given in June. This will probably be a "Minstrel Show." All persons capable of acting are requested to report to the above committee. A base ball team has been organized. After some more practice we will be prepared to meet on the diamond any rural non-professional nine in the country. All communications addressed to William Brown will receive prompt attention.

Marriage licenses have been issued to Isaac Davis of Evansville and Emily Nell Rodger of Brockville, Ont., and Thomas Moran and Celia Fallon, both of Beloit.

SITE QUESTION IS STILL ON THE TAPIS

COUNCIL APPOINTS A COMMITTEE TO INVESTIGATE.

Report of the Library Board Recommending the Dr. Woods Site on Main Street, is Submitted—Various Routine Matters Acted Upon by the Aldermen Last Night.

The question of a site for the library building was not decided by the council at its meeting last evening. A number of citizens who had gathered in the chamber expecting to hear a wordy discussion as to where the building should be located, went away disappointed when Mayor Richardson appointed a committee composed of one alderman from each ward to confer with the library board and settle the question. This being the last meeting of the old council a full board of aldermen were present.

The clerk presented a communication from the library board stating that after much investigation of the different sites offered on which to erect a library building and after discussing the advantages and disadvantages of the different places, with reference to the best interests of the library and the city as a whole they had decided unanimously to recommend the purchase of the site offered by Dr. B. F. Woods, being Lots 3 and 4 in Block 45 of the original plat of the City of Janesville fronting on Main street, with one side on South First street and running through to Park street at the price of twenty thousand dollars. The property at this price includes two large houses and a barn which cost the builder some years ago not less than twenty thousand dollars. These buildings are frame and easily moved, and in the opinion of those qualified to know, will bring from five to eight thousand dollars, when sold to be moved, so that the actual cost to the city will not be over twelve to fifteen thousand dollars. This piece of ground as it now stands is about 144 feet front on Main street and 136 feet deep on Park street.

The report was signed by the full board of directors of the public library. Alderman McLean made a motion that the mayor appoint a committee of five aldermen from the council to confer with the library board. They reported at the first special meeting of the new council. Alderman McLean went on to say that he would ask it as a personal favor of the mayor that he be left off the committee. His name had been bandered about as a meddler in political affairs. He had been down in the Third ward, whopped her up in the Fourth and was always there in the Fifth. "Before this motion is put," he continued, "I want to put myself on record and say right here I don't care whether they put it down at the pest house or out at the county line. I have not conferred with one alderman in regard to this matter and don't wish to be mixed up in it in any way. I have a site of my own to offer which is a river site. Put it on the bridge midway between both sides of the river which will stop the kicking."

Ald. McLean's motion being carried the mayor appointed as a committee to confer with the library board Aldermen Gilkey, Fifield, Hutchinson, Kothman and Murray.

Alderman Gilkey from the finance committee presented the usual batch of bills and the clerk was instructed to draw orders on the treasurer for the same. The mayor was instructed to borrow \$2,500 and to place \$2,000 to the credit of the general fund and \$500 to the credit of fire and water.

Alderman Valentine from the judiciary committee reported the bonds of the city officers in due form and the securities good and recommended they be approved. The motion was carried.

D. Ryan was given permission to erect a building in the rear of his livery barn to be partly of wood and partly of brick.

The annual report of Chief Spencer was received and ordered placed on file.

Alderman McLean called the attention of the council to the unfinished condition of some of the macadamizing on Dodge and Pleasant streets and his statements were corroborated by the city engineer. He would like to know when the contractor was coming back.

Alderman Rice stated that he had had a talk with Mr. Martin over the telephone and that he would be back not later than Tuesday.

Alderman McLean asked the city attorney if there was a way of embodying a clause with the specifications for street work whereby the laborer would be protected? Martin left here last fall owing about \$300 to poor laborers. The city attorney said there was a way it could be fixed.

Alderman McLean moved that hereafter when specifications for street work are drawn the contractor is to give a bond for the protection of the laborer. Carried.

Ald. Hutchinson from the sewerage committee reported on the application of the people on South Third street to have the city engineer see the work was being done according to city plans, said the city had no set plans and the committee could do nothing with the application. The city engineer was ordered to make an inspection of the work and see that it was being properly done.

Alderman McLean moved that the

city attorney draw up an ordinance that hereafter all parties putting in sewer, water or gas pipes on streets that are macadamized shall put back the dirt under the supervision of the street commissioner.

On motion of Alderman McLean sidewalks were ordered in front of Lot 1, Block 1, Smith's addition on Galena street, east half of Lot 72, Smith, Bailey & Stone's addition, on South Franklin street; Lot 170 Mitchell's third addition, on Palm street, and Lot 10, Block 16, Smith's addition on Jefferson street.

On motion of Alderman Hutchinson the city engineer was directed to establish the grade of Pease Court between Main and Bluff streets. The Chicago, Milwaukee & St. Paul R. R. was given permission to occupy a portion of North Main and Prospect avenue with building material for a period of sixty days.

Fred L. Wilbur was given permission to use a portion of High and School streets for storing building material and S. E. Phillips was given permission to move a building from South Franklin street to Lot 6, Block 4, Railroad addition.

On motion of Alderman Judd, the city engineer was instructed to establish a grade on Walker avenue, Glen and Augusta streets in the Third ward and to establish a curb line on McKee boulevard.

Permission was granted C. C. Searles and Henry Hanson to construct a sewer not less than six inches in diameter from Lot 14 in Echlin's addition to connect with a sewer on Madison street. The City of Janesville reserving the right to connect with the same. This being the last meeting the clerk read the minutes of the meeting which were approved and the council adjourned sine die.

Mayor Richardson will issue a call for the new council to meet Friday night at 7:30 o'clock for organization.

DOINGS OF THE LAW MAKERS.

ILLINOIS.

Monday, April 15.

The total of appropriations by the present legislature will be \$12,000,000 in round numbers, if the amounts agreed upon by the house committee are approved. This sum is \$300,000 more than the total of two years ago, but a number of unusual items are included in this year's list. The total asked of the legislature was \$16,340,542, and the appropriations already granted reach a total of \$6,600,254.94. It is estimated that \$2,500,000 more will be authorized before the assembly adjourns.

Cubans Chosen to See McKinley.

Havana, April 15.—The constitutional convention at a secret session appointed a committee of five delegates to go to Washington to see President McKinley regarding the Platt amendment. The committee consists of Senors Portuondo, Llorente, Berriel, Capote, and Diego Taymazo. Senor Portuondo is considered the most radical member and Senor Taymazo the most conservative. Probably there is not a strong man in the committee so far as influence with the convention is concerned. The committee will have no powers to treat with the American government.

Wait for Rush to Free Lands.

Ardmore, I. T., April 15.—Seven thousand persons are camped along the border of Kiowa and Comanche reservations awaiting official permission to enter. It is conservatively estimated that not one person in ten will be able to secure free lands. The suggestion of the interior department to adopt the lottery plan is generally favored by the boomers. Much complaint is being made to government officials to the effect that schemers are selling alleged homestead lots. Notice of the fraud is being called to the attention of the prospective settlers.

To Double-Track Grand Trunk.

At South Bend, Ind., Superintendent W. C. Cotter of the Grand Trunk Western railway has given out a statement in which he says that it is the company's intention to double-track 100 miles of its road this year. The work will be between Port Huron and Durand, Mich., and will take in the loop around Flint, Mich. He states that it will probably be two years before the system is entirely double-tracked between Port Huron and Chicago.

Two Killed by a Priest.

London, April 15.—Signora Orlanda, a well-to-do widow, and her 8-year-old son, were shot in Naples today by an elderly priest named Dom Pietro Potenza. The woman died instantly, having been shot through the brain. The boy with a bullet in his back, succumbed as he was being taken to a hospital. Potenza is a tall, thin man of sinister aspect. He served mass at two churches in Naples and had often been reprimanded by his superiors for irregular conduct.

Quadruplets Are Born.

Lewisburg, Tenn., April 15.—Mrs. John Isley, near Spring Place, has given birth to four babies, each weighing four pounds. They are all living and doing well. Isley, the father, is himself a twin brother.

Phoenix's Secretary Is Dead.

London, April 15.—Francis M. B. Macdonald, secretary of the Phoenix Fire office of London, died in his 70th year. He entered the service of the Phoenix in 1848 and was highly esteemed.

Two Newspapers to Unite.

Indianapolis, Ind., April 15.—It is stated here that the Daily News of this city will this afternoon absorb the Daily Press. While the report cannot be verified, it is generally believed.

"It Seems as Though my Back Would Break."

Is it not true? Women suffer, feel the very life crushed out of them, grow old before their time. Each morning wake up determined to do so much before the day ends, and yet—

Before the morning is very old the dreadful BACKACHE attacks them, the brave spirit sinks back in affright; no matter how hard they struggle, the "clutch" is upon them and they fall upon the couch crying:

"Why should I suffer so? What can I do?"

The answer is ready, your cry has been heard, and a woman is able to restore you to health and happiness.

Backache is only a symptom of more fatal trouble—heed its warning in time.

Lydia E. Pinkham's Vegetable Compound will stop your torture and restore your courage. Your pains come from unnatural menstruation or some derangement of the womb. Let those who are suffering read Mrs. Morton's letter and be guided by her experience.

AN OPEN LETTER TO WOMEN.

"DEAR MRS. PINKHAM:—I have been so delighted with Lydia E. Pinkham's Vegetable Compound I thought I would write and thank you. My system was entirely run down. I suffered with terrible backache in the small of my back and could hardly stand upright; was more tired in the morning than on retiring at night. I had no appetite. Since taking your Compound I have gained fifteen pounds, and am gaining every week. My appetite has improved, have no backache, and I look better than I ever looked before. I shall recommend it to all my friends, as it certainly is a wonderful medicine."—MRS. E. F. MORTON, 826 York St., Cincinnati, O.

When a medicine has been successful in restoring to health more than a million women, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free.

DAY SCHOOLS FOR THE DEAF.

Two bills are now pending in the assembly that have to do with day schools for the deaf, of which there are eighteen scattered over the state. These bills provide for a state superintendent for this class of schools, one of them provides that these schools be recognized as a part of the day school system, and the other that they be placed in charge of the state board of control and handled in conjunction with the state school at Delavan.

There is a good deal of sentiment connected with these bills and much of it is sentimental sentiment.

The argument is used by professional educators and writers who possess a superficial knowledge of the deaf that the day schools are practical and will sooner or later absorb the state school. That the deaf should be educated with hearing people. That it will result in their becoming better citizens and that they should be relieved from the odium of being classed with the penal and charitable classes of the state.

The people who use the argument fail to recognize the fact that the state pays the counties where these schools are located \$150 per year per capita for each scholar in attendance and that the payment of this money is the one and only thing that makes these schools popular.

Aside from the money that the state spends in these schools there are several good reasons why they should be under the supervision of the state board of control, and in close touch with the Delavan school.

In the first place a part of literary education for the deaf, including all that the day schools teach, is so one-sided and impractical, that a diploma with rare exception, is simply a passport to genteel pauperism.

In the second place, eighty per cent of them will never graduate from a literary course in any school. That means a larger class of paupers, not quite so genteel. You may say the percentage of graduates is too low. Compare it with the high schools of the state and you will find that less than five per cent. of all the scholars in attendance, possessing all their faculties, graduate from a high school course.

There is only one kind of education that is practical for the deaf, and that a practical education, impossible for the day school to furnish. The education of the hand is more important to them than simply the education of the brain, because it makes the ability to earn an honest dollar. It means independence, worth more to any man or woman, than all the sentimental facts that were ever exploited. nishes all that the day schools furnish and in addition all the trades for both boys and girls that it is possible to supply. The average boy or girl when ready to leave the state school goes into life equipped for self support.

In ten years from now, if the day schools are perpetuated, there will be scores of deaf men and women applying at the state school for the opportunity to learn a trade, that should have been taught them in their school days. The procession has already started in that direction and is increasing every year.

The schools for the deaf should be made one management and wherever scholars are found in the day schools who have exhausted all the practical benefits that can be derived they should be placed in the state school and given all in the way of practical education that the state is able to furnish.

The deaf are badly handicapped at the best, and they deserve better treatment than a sentimental, one-sided education supplies. Give the deaf boys and girls a chance to do something for themselves and in the years to come they will thank you for it.

A LITTLE LATE.

It is gratifying to the press of the state to know that the Evening Wisconsin of Milwaukee has finally come out from cover and declared itself. The paper has been so cautious and conservative during the debate on the primary election law that it has been destitute of expressed opinion on the question. It has discovered at the last moment, after the contest is over, that nineteen senators have perpetrated a fraud upon the people and even indulges in a little mild profanity by saying that "such a monstrosity as the Hagemeister bill is enough to damn such a swindle."

It is wrong to swear and the Wisconsin has lowered its standard as a family newspaper without accomplishing anything. The time to lock the barn is while the horse is in. It requires neither energy or ability to kick and the paper can hardly afford to join the ranks of kickers.

The action of the senate is endorsed by the rank and file of the party throughout the state, and when the smoke clears away and the assembly endorses the Hagemeister amendment

there will be harmony in the party and the state will have an opportunity to test the much discussed measure.

It has been apparent to every paper in the state for the past two months that the senate would adopt some sort of a compromise measure. If the Wisconsin had any thing to offer in the way of a suggestion, it failed to say anything about it; and it is a little late just now to offer advice.

THE NEW PAPER.

It appears to be a settled fact that Milwaukee is to have a new morning daily, to be known as the "Free Press." The promoters claim that there is a field for the enterprise and the paper will be launched some time next month. It will be republican in politics, under the banner of independence. The capital stock is \$100,000, which is ample to put in a first class plant. The men behind the gun are said to have plenty of money. This is well for the enterprise, for there's no rat hole quite so deep as a new newspaper office. There's nothing but time and money that makes a paying newspaper, and time is just as necessary as money. The Free Press will find lively competition in the Milwaukee Sentinel which is today one of the best newspapers in the west. If its new competitor measures up in enterprise and ability, the State will have two morning dailies that will be a credit to any state. Success to the Milwaukee Free Press.

The fight over the osteopathic bill in the assembly looks very much as though the bill would be killed. Assemblyman Keene, in discussing the measure expressed the sentiment of the opposition when he said: "We are the guardians of the public health." That's the popular notion among physicians and the thinnest kind of an argument. The osteopath is just as much of a guardian as the doctor, and neither one is entitled to any such distinction. The assembly may kill the bill, but the science can not be driven from the state. It has too many intelligent supporters.

The Milwaukee Sentinel is spending money with a lavish hand and is by far and away the best newspaper that the state has ever had. It is bright and newsy and covers the news field as thoroughly as any of the great metropolitan dailies. The people of the state appreciate it and will patronize it freely. The weak point of the Sentinel has always been its delivery service, which the new company has not yet overcome. The Sunday Sentinel reaches Janesville at 11 o'clock and the daily any where from 7:30 to 12:00. The paper is entitled to better service.

The Cuban convention is still discussing the question shall we or shall we not accept the Platt amendment. The discussion affords a pleasant pastime on a question that is already settled. There is no alternative for Cuba and the sooner the island comes to its sense and settles down to business, the better. This government will be very glad to see the Cuban people demonstrate their ability to govern themselves, and is ready to aid them in every practical way.

Among the fool measures recently passed by the assembly is the ice tax bill, which provides for a 3c per ton tax on all ice cut in the state for outside shipment. That's enterprise with a vengeance, and is an other good argument in favor of a forty-day session. The senate will do well to kill the bill and encourage outside capital to come in and spend a few thousand dollars for labor occasionally. Ice and air are not expensive. The state can hardly afford to speculate on either.

The Marinette school board has prohibited foot ball and dancing, but the initiations are allowed un molested. There is nothing in an initiation which tends to produce gracefulness of carriage or elegance of appearance, but quite the contrary, as the sole object seems to be to make a candidate appear as ridiculous as possible. Foot ball and dancing both train and develop a prepossession which shows to an advantage on the platform, or in the parlor, as well as in the busy life on the street.

Not only is history falsely recorded on Gen. Logan's statue in Washington, but one of the general's legs is longer than the other, and he appears very unmilitary in the way he sits on his horse and holds his sword. These details may appear very insignificant, but when they are perpetuated in enduring bronze, it is a matter that affects posterity quite as much as the present.

The Methodist churches in New York city have shown a decidedly anti-christian spirit in their vicious attacks on Rev. E. S. Simonson, who left them for the faith of Christian Science. The resolutions adopted at the conference show an absolute lack of the first principles taught by Christ, and should be condemned by all Christians of all denominations.

Messrs. Stevens and Hall have won for them selves fame as crank legislators, not only in the support of their pet measures, but in the records of their votes on all measures. There is only one redeeming feature about such men, you always know how they are going to vote on any measure that comes up for consideration.

The refusal of bond holders to take advantage of Secy. Gage's offer of redemption, discloses a degree of

wealth and public confidence in the United States that has never before been reached in this or in any other country.

Kentucky is just now engaged in another farce connected with the Goebel murder trial. An effort is being made to implicate ex-governor Taylor. Kentucky is several years behind Kansas in the character of her political fights. There is too much free whiskey and too many shot guns for safety.

With J. Pierpont Morgan and Chas. T. Yerkes in England, American capital and enterprise is well represented. It will not be surprising if the Nicaragua canal is well in hand before London's underground railroad is completed.

A Chicago professor shocked an audience of teachers Saturday by springing that old gag "When does lettuce blush." Chicago modesty is extremely modest.

Col. Randolph, recently appointed chief of artillery, is another man who has risen to his present position without the aid of West Point "exercises" and "Tobasco Sauce."

Pres. McKimley will receive the Cuban delegation most courteously and is anxious that they shall get a just and fair view of the position asserted by this country.

Morgan may want the earth, but he probably will not imitate the "white rats" in forming a trust.

His Following.

"I suppose that your fame has led many people to try to follow in your footsteps," said the admiring young woman.

"Yes," answered Senator Sorghum; "I was pursued by footpads about three nights a week when I was in Chicago."—Washington Star.

Plenty of It.

"I'm glad to hear," wrote the old man to the youth at college, "that you favor the sun bath as a means to health. When you come home vacation time, I'll give you 15 acres of it, behind a spy mule, with not a tree to cast a shadow on you."—Atlanta Constitution.

Coal Comes High.

"The trouble with the average furnace this weather," remarked Binks, "is that it don't draw."

"If that's your experience," replied Houskeep, "you're in luck. Mine draws too much—draws nearly my whole salary, in fact."—Philadelphia Press.

Looking For Information.

"How much money has my husband in bank?" demanded the woman.

"I cannot tell you, madam," replied the man behind the grating. "Why, they told me you were the teller," snapped the woman.—Philadelphia Record.

GLUTTONY

Is more common than we may think, if we define gluttony as eating beyond the body's need of sustenance and beyond the stomach's capacity for digestion and assimilation of food. That is a fair definition, and it fastens the name glutton on many a person who would resent the term as an insult. The fact of this gluttony is marked by its consequences. The overloaded stomach becomes diseased. The popular term for the condition is "weak" stomach. The "weak" stomach fails in furnishing adequate nutrition for the body, and soon the "weakness" spreads from the stomach to other organs.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect assimilation of food, by which alone the health and strength of the body is maintained.

"Your medicine helped me so much that I cannot praise it too highly," writes Mrs. C. T. Brooks, of Poland, Androscoggin Co., Me. "The first dose I took helped me. I cannot forget how I felt when I took it; I was suffering everything with indigestion and my stomach was bloated that it seemed as though it must burst. My husband said he was going for the doctor, but I said if he would get me a bottle of the 'Golden Medical Discovery' I would try that. I had not taken it long when I felt relieved, and have not had a touch of indigestion or stomach trouble since. I had been sick for four years, and less than four bottles cured me. Some people that knew me before I began to take the 'Golden Medical Discovery' tell me that they never saw such a change in any one, and they also say they don't see how I can do such long washings as I do now, when I had not done a washing for so long."

Dr. Pierce's Pellets cure biliousness.

LONG ISLAND SMITHS.

So Numerous That They Sometimes Need Labels to Distinguish Them.

A good story is told at the expense of the Long Island Smiths by a census enumerator. Years ago, before so many new settlers had come in, he fell into the habit of asking at each place he stopped the name of the next householder beyond and invariably met with the response, "Smith."

"Bless me!" said he at length to a long, lank old inhabitant. "Are you all Smiths down here?"

"I'll tell you how 'tis, squre," said the old man. "There is a pretty considerable lot of us Smiths of the island and no mistake. There was Tanger Smith, that the British government thought so well of they gave him a grant of pretty much all the present town of Brookhaven. Then there was Bull Smith, who made a swap with the Indians of a few beads and red coats for all the land his brindle bull Sam could trot round in a day. One family of us is known as the John Rock Smiths, because its ancestor used a big bowlder for the rear wall of his house. Another line is called the Jonathan Black Smiths because its ancestor was as dark complected as an Indian. Still another family is known as the Block Smiths, from the fact that their founder had a big horse block before his door, and another as the Weight Smiths, because their ancestor owned the first set of weights and measures in the settlement."

"But, bless you, we're nothing as bad off as they were in Patchogue a few years ago. There were actually five William Smiths living there at one time, not a mile apart either. But the people got around that too. One of them owned a peacock, the only one of the fire that did, and he became 'Peacock Bill' Smith. Another invented an improved kind of wheelbarrow with three wheels, and he was known all his days as 'Wheelbarrow Bill' Smith. The third lived on a point projecting into the bay, and he was called 'Point Bill.' A fourth was a famous diver, and he was called 'Submarine Bill,' and the fifth was allers called 'Eleven Dollar Bill' for this reason:

"He was clerking in a store, and when one day a woman gave him a two dollar bill to pay for her trading he gave her back \$10.50 in change. The boss got on to it, and he said he mistook the two Roman numerals II in a corner for the figure 11."—Brooklyn Eagle.

A High Class Criminal.

Not long ago an exhibition of historical portraits was held in London for the aid of some charity. These portraits were, of course, of fabulous value, and the collection was jealously guarded by detectives. Toward the end of the exhibition one of these detectives went to a member of the committee, begged his pardon, but desired to know if he might ask about one of the pictures. He was told, of course, that he might, and so, begging pardon again, he desired to know "who was the female" in a picture he pointed out.

"Why do you ask?" his listener inquired, interested and amused.

"Because, sir," said the detective, "that female is what we would call in Scotland Yard 'a high class criminal.'"

The portrait was of Mary, queen of Scots.

He Knew.

"Pat, do you know what is the greatest barrier to the habit of drinking?"

"Oh, da, sor."

"Oh, you do, eh? Well, what is it?"

"An empty bottle, sure."—Richmond Dispatch.

Who Takes It?

"Do you take any particular paper?" asked the visitor.

"No; we merely subscribe for one," answered Mrs. Topflore. "The janitor takes it."—Philadelphia Record.

The wagon tongue says never a word, but it gets there ahead of the rest of the outfit. It might be well for some people to make a note of this.—Chicago News.

construct, maintain and operate railway line, upon, along and across certain streets in the City of Janesville, Wisconsin, was allowed by the City of Janesville, Wisconsin, to the Milwaukee Railway Company in the office of the City Clerk of the City of Janesville, Wisconsin, on the 12th day of April, A. D., 1904.

TO THE MAYOR AND COMMON COUNCIL OF THE CITY OF JANESVILLE.

The Beloit, Delavan Lake and Janesville Railway Company, a corporation organized and existing under the laws of the State of Wisconsin, hereby applies to your honorable body for the right to construct and franchise to construct, maintain and operate a railway with all necessary facilities, sidetracks, turnouts, wyes, poles, wires, curves, and other fixtures, upon, along and across certain streets particularly mentioned in the proposed ordinance hereto annexed and made a part hereof; and it prays the lawful adoption of an ordinance granting said right, privilege and franchise.

Dated, April 12, A. D., 1901.

Beloit, Delavan Lake and Janesville Railway Company,

By H. H. CLOUGH, President.

AN ORDINANCE, granting to the Beloit, Delavan Lake and Janesville Railway Company, a corporation organized under the laws of Wisconsin, its successors and assigns, the right to construct, maintain and operate an electric railway line, upon, along and across certain streets particularly mentioned in the proposed ordinance hereto annexed and made a part hereof; and prescribing the terms and conditions upon which said streets and avenues may be used and occupied by said railway.

Section 1. The Beloit, Delavan Lake and Janesville Railway Company, its successors or assigns, is hereby granted for and after the passage of this ordinance, the right and authority to construct, maintain and operate an electric railway for the carriage of passengers, with single track wyes, turnouts, wyes, poles, wires, curves, and other fixtures in, along and upon the following streets, to-wit:

Commencing at the present southerly line of the City of Janesville at the point where said southerly limits are intersected by Beloit Avenue, thence northerly on said Beloit Avenue to Elliott street, thence westerly on said Elliott street to Main street, thence northerly on said Mackay boulevard to Eastern Avenue, thence easterly on said Eastern Avenue to the tracks of the Janesville Street Railway Company, and thence westerly along and upon said tracks or right of way to Main street, thence northerly on said Main street to the intersection of Milwaukee street, provided that the right to use and pass over the tracks or right of way of said Janesville Street Railway Company be first obtained by said Beloit, Delavan Lake and Janesville Railway Company, by lease or otherwise.

Section 2. The mode and manner of constructing said railway shall be as follows: The track shall be laid with rails of the tie pattern, along such location in said streets as the said Beloit, Delavan Lake and Janesville Railway Company, its successors or assigns, shall designate, and the city council shall approve and shall be laid and maintained at the present or established grade of said streets; and in any case where the grade of said streets or avenues over which it shall pass; and in any case where the grade of said streets or avenues is such that the City of Janesville shall change the grade of any street, said railway company its successors or assigns, shall change the grade of the track to correspond to such new grade, at the expense of the said railway company, and shall maintain the same, and shall have no claim against the city for any damage resulting from such change of grade. The rails of such track shall be laid in such manner as to be of the same and uniform gauge as the rails of the street and ordinary use of the streets and avenues and the passage of wagons, carriages and other vehicles on or across said track at any point, and in all directions and with such suitable gutters and drains at such points, so as to permit the free flow of water falling or accumulating on said streets. At all street crossings where there is no paving the track shall be so planned or otherwise constructed as to make safe and convenient crossings for all kinds of vehicles as well as pedestrians, and such crossings shall be maintained in the best order and repair. Whenever the City of Janesville shall have or otherwise improve the streets over which said track or tracks shall pass, the owner or owners of such railway shall be required to pave or improve at their own expense a space of seven (7) feet for single track and fourteen (14) feet for double track, with the material and in the same manner required by the plans and specifications providing for such improvement, provided that in computing said strips of seven (7) and fourteen (14) feet the width of the street or the tracks of said railway company shall be included as a part thereof. When such railway crosses or runs on any street or avenue that has been paved or improved by the City of Janesville, such railway shall lay its track and put the paving back to the satisfaction of the City Engineer so as to leave said street in as good a condition before the track is laid. The gauge of the track shall be four feet eight and one-half inches (4ft. 8½in.). Any part of any street over which said track or tracks shall pass, and the limits hereof, shall be paved or improved by the said railway company which shall be excavated or disturbed in the construction of said track shall be restored as soon as possible to the condition of usefulness. All excavated earth, shill or refuse, or material accumulated during the construction of the track shall be promptly removed from the street or avenue, and care shall be taken to prevent any obstruction to the free travel upon the street or avenue, as far as possible. On streets not paved, all crosswalks which shall be taken up in the construction of the track shall be promptly replaced with the same similar material and restored to as good condition as before.

Section 3. Said railway shall be operated with electricity with overhead wires, or trolley power, and the company shall be allowed to erect all necessary poles and other mechanical conveniences for the purpose of carrying telephones, telegraph or electric light wires and in purposes of said railway or for the purpose of furnishing power service to others, and the company for the furnishing power, electric light, telephone or telegraph service to others outside the city limits. All poles shall be set in the city limits (20 feet in height above ground and 12 feet in diameter) and where they shall be at all times thoroughly painted. They shall be set so as not to interfere with the travel upon the streets, and shall be set so as not to be in the sidewalk, and entirely outside the public or interesting alley, or private driveway of any intersecting street and so as not to injure or obstruct any sewer, water or gas pipe, and the company shall be allowed to employ the best and most modern method to prevent the escape of returning electricity and electrolysis of the water pipes, and to prevent the escape of steam, including gas and water service pipes and connections.

Section 4. The owner or owners of such railway shall place and maintain thereon such signs and notices as the city council may require for the comfort and safety of the public shall light the same at night and in cold weather they shall be comfortably heated

space between the tracks at switches or crossings free and clear from dirt and snow or ice or other obstructions; and if snow shall level the same so as not to obstruct or interfere with the free use of said streets. In case the city fire hose or other apparatus shall at any time be upon the track, said railway or its agent shall stop it so as not to injure the same or interfere in any way with the fire department in endeavoring to extinguish a fire.

Section 8. The cars belonging to the owner or owners of said railway shall be entitled to the track, and any vehicle or vehicles upon such track shall turn out to the right of the car so as not to obstruct the track unobstructed, and the driver of any vehicle not so do so shall be liable to a fine of not less than one dollar nor more than five dollars and costs of prosecution.

Section 9. The city of Janesville reserves the right to grant to any other company or corporation operating a street railway the right to cross the track of the railway hereinafter established, created or improved, under the following conditions, such terms as the city council may deem just and equitable, in case the owners of said railways shall fail to come to an agreement by arbitration or otherwise, between themselves:

Section 10. If the owner or owners of said railway shall at any time fail or neglect after due notice to do any of the work herein required of them in the way of street construction, improvement or repair, then the cost thereof may be paid by the city of Janesville or it may cause said work to be done and recovered or sums so paid or incurred by it by action against the owner or owners of said railway.

Section 11. Said railway hereby provided for shall begin its construction within one year and be completed and in operation not later than three years from the date of the passage of this ordinance, and thereafter the completion of the same shall become null and void unless the completion of said railway is prevented by legal proceedings. The city council may, however, extend the time for such completion if it is shown to be satisfactory to the city, and that any delay was beyond control of said railway company.

Section 12. After the common council of the city of Janesville shall grant to any person the right to move a building over or along the streets in which said railway shall be laid, the owner of such building shall be bound to remove the same shall be required to move the same across or along the tracks of said railway company between the hours of twelve o'clock night, and five o'clock in the forenoon, and to give adequate notice specifying reasonable notice of such permit and satisfactory indemnity for the cost and expense which it will incur thereby, and the city clerk temporarily remove his wires as to permit the moving of such building across or along such streets or avenues.

Section 13. The said railway company shall, without delay, after the passage of this ordinance file with the city clerk its acceptance thereof, in which it shall agree to construct and operate said railway as herein provided; and at least thirty days prior to the time expiration shall be begun for the construction of said railway it shall deposit with the city clerk a bond for the sum of five thousand dollars (\$5,000) with two (2) sureties, each of the sum of five hundred dollars (\$500), in full satisfaction of the five thousand dollars (\$5,000) as security for the restoration of the streets after the construction in the manner herein provided, and in case such restoration is not made in due season, the city clerk for said bond shall become forfeited as liquidated damages. And in case said railway company shall restore said streets in accordance with the provisions herein contained, then said bond shall be delivered up to said railway company.

Section 14. The said railway company takes and accepts the rights hereto granted to it by this ordinance to any person or corporation to which it may have or may hereafter grant the right to have and maintain gas or water pipes in said streets or avenues and to lay out streets to build, place and repair in said streets and sewer, gas and water pipes and to make connections therevith and to the right of the city to pave and repave, and otherwise improve the streets, sidewalks, bridges, avenues, and to change the grade thereof, and for any temporary obstruction and relaying of the track, poles or other appliances necessarily resulting from any such use of said streets, or any part thereof, said railway company shall be without remedy.

Section 15. The owner or owners of such railway shall at all times hereafter be held jointly and severally and the city from any and all legal liability and demands for injuries to person or property, costs and expenses to which said city may lawfully be subjected or made liable by reason of the failure of any person or corporation to comply with the provisions of this ordinance or of the exercise and operation of the same by such persons or corporations, and the owner or owners are notified that such owners have a responsibility and duty to see that no unreasonable or negligent use is made of their property, and such owners shall upon receipt of such notice assume the defense and expenses of such action so far as the said city is concerned.

Section 16. This ordinance shall take effect and be in force from and after its passage and after its acceptance as provided herein.

STREET ASSESSMENT NOTICE.

Office of Street Assessment Committee.
City of Janesville, Wis., April 2, 1901.
To whom it may concern:

The common council of the city of Janesville having decided that it was expedient and necessary to lay Second street from the westerly side of Wisconsin street to the easterly side of East street; South Third street from the easterly side of South Main street to the westerly side of Pleasant street; North Bluff street from the northern side of Pleasant street to the southerly side of North First street; Pleasant street from the southerly side of Pleasant street to the southerly side of Pleasant street; Franklin street from the easterly side of High street to the westerly end of Mitchell's Fourth Addition; Academy street from the easterly side of North Milwaukee street to the northern side of West Milwaukee street from the southerly side of West Milwaukee street to the northerly side of Pleasant street; and to grade, grade, macadamize and lay the gutters and sidewalks, and otherwise improved at the expense of the real estate to be benefited thereby, and having ordered that the street assessment committee view the premises and determine the damages and benefits which will accrue to each parcel of real estate effected by such change and improvements, and to assess the cost of the contemplated work or improvement to each parcel of land of said streets, and the amount that should be assessed to each parcel of such real estate before the same is damaged or improved thereby, for such contemplated work or improvement.

Now, therefore, notice is hereby given that in pursuance of said order, plans and specifications for the contemplated work proposed and approved, and the entire cost of the improvements contemplated in said plans and specifications determined, that we have viewed the entire tract affected by the contemplated work, and estimated by said improvements and determined the damages and benefits which will accrue to each parcel of real estate by said work or improvement, and that we have assessed the cost of each parcel of real estate and the amount to be assessed to each parcel of such real estate for such contemplated work or improvement.

We, the undersigned, intend to call on persons interested that said report is on file and open for review in the office of the street assessment committee, in the city clerk's office in said city of Janesville, Wisconsin, on or before twenty days after the date of this notice.

WILL EXTEND CALL TO REV. R. M. VAUGHAN

Members of Baptist Church About to
Fill Vacancy Caused by Rev.
Kempton's Death.

Members of the Baptist church are considering the question of extending a call to Rev. Richard M. Vaughan of Detroit, Mich., who has filled the pulpit at the local Baptist church on two Sundays. He preached at the morning and evening services last Sunday and was heard by two large congregations.

A business meeting of the members of the church will be held at the close of prayer meeting next Thursday evening and at this time the pulpit committee will recommend Rev. Vaughan and a vote on the matter will be taken. Several of the prominent members of the church have been interviewed and have expressed themselves in favor of calling Rev. Vaughan.

Rev. Vaughan is a young man about thirty years of age. He is a native of this state and his early education was received at Wayland university, Beaver Dam. He then took a theological course at the University of Chicago and served as Dr. Hanson's assistant in Chicago for two years. For nearly two years he has been at Detroit. He is a fluent speaker and gives his sermons without the use of notes. Inquiries by the pulpit committee have resulted in the very finest endorsements for Rev. Vaughan and his work from people who have been closely connected with him in his various fields of labor.

SUBSCRIPTION SALE FOR MISS ANNA HELD

Manager Myers of the Opera House,
Will Devote Tomorrow Call
ing on Business Men.

For the extraordinary engagement of Miss Anna Held at the Myers Grand on Friday evening, April 26, a subscription sale will be conducted and Manager P. L. Myers will devote tomorrow to calling on business men. He will see as many of those likely to desire seats as he can but of course it will be impossible for him to call on every one. For the convenience of the public, therefore, the list will be left at the box office the balance of the week and those who desire can sign the list at the box office and thus secure a choice of seats.

The price of subscription tickets will be \$1.50 and no person will be allowed to buy more than ten tickets. The seat sale to subscribers only will open at the box office next Monday morning at nine o'clock and the indications are that the sale will be a record breaker.

HANDSOME OFFICES.

Dr. W. H. Judd has a fine suite of
Rooms as There is in the City.

Carpenters, paper hangers, plumbers and painters have been busily engaged during the past two weeks in remodeling a suite of rooms on North Main street now occupied as offices by Dr. W. H. Judd. The rooms adjoin Dr. Judd's former office, being located across the hall, the same stairway being used. The new suite consists of a ladies' reception room, consultation and operating room, and a reception or office room. The rooms are handsomely papered and have been remodeled from top to bottom. The best of plumbing has been put in. Perfect light is obtained. The offices are located facing Main street, and all a long felt want. Dr. Judd's former offices are now in the hands of carpenters, who will soon have them converted into a model five room flat building, with all modern improvements. This will be for rent when completed, and will make an ideal home.

Y. P. S. Dancing Party.

The dancing party given by the Y. P. S. at Assembly hall last evening was attended by about one hundred and twenty-five couples, who spent a most enjoyable time dancing to the sweet strains of Smith's orchestra. The hall was handsomely decorated and added much to the pleasures of the evening. Nothing was overlooked by the committee to make the party an enjoyable affair.

The arrangement of the party was in the hands of W. Drummond, E. Olin, Eva Dopp and Alma Wells, while the floor was looked after by W. Drummond, E. Olin, Guy Olin and Fred Palmer.

IS FRENCH PRISONER?

Alarming Rumor That General and Men
Are Captured.

London, April 16.—It is said that a private telegram has been received here to the effect that Gen. French, with 500 British troops, has been captured by the Boers while his force was enveloped in a mist on the hills. No confirmation of the report can be obtained.

The war office here knows nothing about the rumored capture of Gen. French and entirely discredits the report.

Says Boers Will Win.

New York, April 15.—A special to the World from Washington says: Capt. John A. Hassell, who commanded the American scouts in the Boer army in the first part of the war, but is now here, says: "The Boer cause, while it cannot be said to be bright, is brighter than that of the British. The Boers have just as good a chance to win now as the Americans had before the sudden turn of good luck which resulted in the surrender of Cornwallis."

"The winter season has just begun in South Africa, and from now until September the British soldiers will have a hard time."

"The Boers are making their winter quarters in the Lydenburg range, where the English will not dare tackle them, for they would have to cross the low, marshy country to get there, and they have to import every pound of fodder for their horses. The problem is not only one of sustaining the lives of their men in the marshy veldt, where chills and marsh fever wind up in deadly pneumonia, but it is a problem of sustaining horseflesh."

N. H. CLARK DEAD; AN OLD SETTLER

Had Been a Resident of This City for
the Past Thirty Years—Fun-
eral Thursday Afternoon.

N. H. Clark, a resident of this city for the last thirty-six years passed peacefully away at his home, 107 Locust street at ten o'clock this morning after an illness of a year's duration, the last six months of which were spent in bed.

Mr. Clark was sixty-six years of age at the time of his death. He was born in Caledonia county, Vermont, where his early life was spent. He came to Janesville to live in 1865 and has resided here since that time.

Mr. Clark was an active business man and was engaged in buying and selling live stock up to the time of his sickness. His upright business principles made for him a large circle of friends.

He leaves surviving him to mourn his death a widow and three children, two daughters, Mrs. Frank Kimball of Newberry, Vermont, and Miss Vannie B. Clark of this city and one son, Geo. A. Clark. A son, Gilmore Clark, passed away eleven years ago. The bereaved family have the sympathy of the entire community.

The funeral services will be held from the family residence at 107 Locust street, Thursday afternoon at 2:30 o'clock, the Rev. Robert C. Denison officiating.

KIND WORDS

For One of the Many High Grades of
Pianos That We Offer at the
Great Discount Sale.

Madison, Wis., April 6, 1901.
Groves-Barnes Music Co., Madison, Wis.

Dear Sirs:—Please allow me to express my great satisfaction at the excellent service given us by the Blaisie pianos. We have now been using them in considerable numbers for five or six years, and in a manner to test them severely. The length of time has been sufficient to develop their weak points, if they had had any, but we have discovered none. Words might be multiplied, but it is sufficient to say that in touch, tone and endurance, they have proven not only satisfactory, but pre-eminently so. I should hesitate to speak thus unqualifiedly, if I did not feel that my acquaintance with the instruments had been sufficient to enable me to speak from positive knowledge.

Yours very truly,
F. A. PARKER, Director,

TWILIGHT CLUB WILL MEET TONIGHT

The Subject for the Session Will Be
Civic Esthetics—This Will Be
Attended by a Banquet.

The Twilight club will close its season's work with the customary annual banquet at which the ladies are guests of honor.

The supper will be served at 7:30 o'clock at the Hotel Myers. The guests will be seated at long tables and covers will be laid for 275 people. Every possible arrangement has been made for efficient service and the menu planned is very tempting.

W. S. Jeffris will preside as leader of the meeting and the subject for the evening's discussion will be "Civic Esthetics." Warren H. Manning, the celebrated landscape artist of Boston,

FINE PROGRAM AT MUSICAL-LITERARY

Selections Were from the French Composers—Subject for Next Meeting Will Be Dance Forms.

The Musical-Literary society held one of the most enjoyable meetings of the season at Court street M. E. church last evening and the excellent program was enjoyed by the usual appreciative audience of members of the society.

The meeting was one of especial interest owing to the presence of Mrs. C. F. Tallard of Edgerton. She gave a number on the second part of the program and the warm reception which was accorded her must have been very gratifying to the sweet contralto singer. She gave a double number, "Autumn Thought" and "Elegia" by Massenet and the pleased audience asked for an encore, but she declined to respond.

The program was greatly enhanced by the organ numbers which were very fine. The organ solo, "Choral Minuette, Prayer, Tocatta," by Boellmann, as played by Mrs. John P. Sweeney, was one of the finest selections of the evening. The different movements gave opportunity for her to show in strong contrast the delicacy of touch and the masterly power with which she plays the organ.

Another very fine organ solo by Miss Ada Pond closed the program. It was Gullmont's "Prelude and Amen" and was exquisitely played.

The instrumental part of the program was the most elaborate of any yet given at any meeting. Besides the numbers mentioned it included two trios, "Lullaby" by Louis Tipton, played by Miss Ada Pond, organ; Oscar Halverson, violin; and F. F. Lewis, cello; also "Lady of the Lake" by Brewer, played by Mrs. F. F. Lewis, organ; Mrs. W. T. Sherer, piano and F. F. Lewis, cello. Both numbers were very fine.

The remaining instrumental numbers were a piano solo, "Idyll," by Theodore Lack, which Miss Elva Crawford played delightfully and a very well rendered piano duet by Misses Mae Treat and Tessie Gibbons. The duet was by Tours and included "Prelude," "Minuette Romance and Tarantelle."

George B. Paris sang a triple number, "The Two Grenadiers" by Schumann; "Marguerite" (from Faust) by Gounod and "The Silver Ring" by Chaminade. The three songs being decidedly different in style contrasted effectively and made a most pleasing number.

One of the prettiest songs of the evening was Amy Horlick's "The Bird and the Rose" which Miss Elizabeth Palmer sang charmingly.

Especially pleasing was the charming rendition of Faurer's "Sanctus" by Miss Cora Anderson, Mrs. Fannie Clark, William Garbutt and George G. Paris. The organ accompaniment and the violin obligato added impressiveness to the selection.

The selections on last evening's program from the French composers and Mrs. Mary R. Stever presented a well written and exhaustive paper on "History of French Music."

The next meeting will be held next Monday evening and the subject will be "Dance Forms."

An Interesting Fact.

The human system contains about three gallons of blood. Every drop of it is filtered through the kidneys every ten minutes. Just think what a tax this incessant filtration becomes upon one's kidneys. Is it any wonder they become impaired before we reach old age?

Dr. Crook's Quaker Tonic Tablets are compounded from natural kidney specifics and the action of this medicine is absolutely different from any other known. Quaker Tonic stimulates the normal action of kidneys and liver at the same time, and is the most satisfactory kidney remedy. All druggists; 50 cents a box.

Texas Oil Is of a High Grade.

Tests made in refining Texas crude oil at the Standard Oil refinery at Lima, Ohio, show the product of the Beaumont field to be of much better grade than heretofore estimated. That the oil market must in the future reckon on with the Beaumont output as a factor is now coming to be recognized. The recent decline in both the Pennsylvania and Lima markets is attributed to the strike in the Beaumont field.

Faith Cure Not Medicine.

Milwaukee, Wis., April 16.—Judge Eugene S. Elliott, in the circuit court has decided that Christian scientists are not liable to prosecution under the state medical law. The court ruled that the scientists can no more be held for practicing medicine when their means for healing is by prayer than can a minister who prays at the bedside of the sick and receives a fee either directly or indirectly.

Neglect your stomach and threefold will be dyspepsia, indigestion, biliousness and flatulency. The Bitter cures these. It is an appetizer—a nerve tonic and makes pure blood. It fortifies the system against Malaria, Fever and Ague.

DOES NOT DISAPPOINT.

The New Discovery for Catarrh Seems to Possess Remarkable Merit.

A new catarrh cure has recently appeared which so far as tested has been remarkably successful in curing all forms of catarrh, whether in the head, throat, bronchial tubes, or in stomach and liver.

The remedy is in tablet form, pleasant and convenient to take and no special secrecy is maintained as to what it contains, the tablet being a scientific combination of Guaiacol, Eucalyptol, Sanguinaria, Hydrastin and similar valuable and harmless antiseptics.

The safe and effective catarrh cure may be found at any drug store under the name of Stuart's Catarrh Tablets.

Whether the catarrh is located in the nose, throat, bronchial tubes or stomach, the tablets seem to act with equal success, removing the stuffy feeling in head and nose, clearing the mucous membrane of throat and trachea from catarrhal secretions, which cause the tickling, coughing, hawking and gagging so annoying to every catarrh sufferer.

Nasal catarrh generally leads to ulceration in some cases to such an extent as to destroy the nose entirely and in many old cases of catarrh the bones of the head become diseased. Nasal catarrh gradually extends to the throat and bronchial tubes and very often to the stomach, causing that very obstinate trouble, catarrh of the stomach.

Catarrh is a systemic poison, inherent in the blood, and local washes, douches, salves, inhalers and sprays can have no effect on the real cause of the disease. An internal remedy which acts upon the blood is the only rational treatment and Stuart's Catarrh Tablets is the safest of all internal remedies, as well as the most convenient and satisfactory from a medical standpoint.

Dr. Eaton recently stated that he had successfully used Stuart's Catarrh Tablets in chronic cases, even where the ulceration had extended so far as to destroy the septum of the nose. He says, "I am pleasantly surprised almost every day by the excellent results from Stuart's Catarrh Tablets. It is remarkable how effectively they remove the excessive secretion and bring about a healthy condition of the mucous membranes of the nose, throat and stomach."

All druggists sell complete treatment of the tablets at 50 cents and a little book giving the symptoms and causes of the various forms of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.

Fatal Runaway Accidents.

New York, April 16.—Half a dozen horsemen who were driving up St. Nicholas avenue tried to stop a runaway horse, which dragged a runaway from the opposite direction. A dead man was found in the vehicle. From papers found in his pockets the police learned that the dead man was Ernest Russell Bartlett; that some time recently he had been the secretary and treasurer of the Maintenance company.

Marshall, Mich., April 16.—In a runaway accident at Burlington village, Mrs. William Dunlap was killed and Mrs. George Cole fatally injured. Mrs. Dunlap jumped from the vehicle and struck on her head, fracturing her skull and breaking her neck. Mrs. Cole was injured internally when the carriage was overturned.

Preacher Killed by Train.

Peru, Ind., April 16.—Rev. Edwin J. Oliver, aged 28, pastor of the Evangelical church, while returning from conference, jumped from a Wabash train in front of another and was crushed to death. The accident was due to his haste to catch another train at the crossing. He had just been transferred to East Germantown by the conference. He was to have departed in the evening for Aurora, Ill., to marry Miss Selfrink, daughter of Rev. J. B. Selfrink.

Pope Creates New Cardinals.

Rome, April 16.—At the consistory Archbishop Martinelli, the papal delegate in the United States, was preconized a cardinal. Eleven other cardinals were created, as follows: Mgr. Frisetti, Mgr. Cabanis, Mgr. San Miniato, Mgr. Cennari, Mgr. Della Voce, Archbishop of Benevento, Archbishop of Ferrara, Archbishop of Prague, Archbishop of Cyacow, Bishop of Verona, Bishop of Pavia.

Tax for Toppers.

Little Rock, Ark., April 16.—By a vote of 12 to 7 the senate passed a bill making it unlawful for any person to drink any intoxicating liquors as a beverage unless he shall have first obtained a license as a dram-drinker. The license is fixed at \$5 per annum.

Philadelphia Fire Loss \$90,000.

Philadelphia, Pa., April 16.—The four-story brick structure at Nos. 757, 759, and 761 Passayunk avenue, occupied by P. T. Hallahan's shoe factory, the Franklin shoe store, and S. Birscher, dealer in wall paper, was entirely destroyed by fire. Loss, \$90,000.

Burned by Celluloid Collar.

Quincy, Ill., April 16.—A celluloid collar worn by William Williams, a hostler in the Palace livery stable here, was responsible for a fire in which Williams was burned fatally and the building practically destroyed. Williams, in lighting a match, set fire to his collar. Williams tore the flaming band from his neck and threw it down where it ignited a can of gasoline. An explosion followed, scattering burning gasoline in every direction. All horses escaped, but a number of carriages were burned.

OPPOSE TAYLOR'S SURRENDER.

Kentuckians Ask His Protection by President to Keep Lips Sealed.

Washington, D. C., April 16.—Members of the eKentucky colony have succeeded in securing a promise from Comptroller Dawes that an opportunity will be given them to see President McKinley. The fact that Gov. Durbin of Indiana shows signs of weakening and giving ex-Gov. Taylor into the hands of the Kentucky state authorities has thrown the Kentuckians into a panic. Senator Deboe, at the head of the Kentucky contingent, wants the president to use his influence with Gov. Nash of Ohio to protect Taylor should he be forced to flee from Indiana.

The Kentuckians insist that the surrender of Taylor will prove a republican calamity. They admit that, once in the hands of the Kentucky democrats, Taylor may possibly turn state's evidence and not only make a clean breast of the entire Goebel plot, but give other information which will fall to the discredit of the republican national committee.

To make matters the more alarming for the Blue Grass state men, Senator Hanna, the chairman of the national committee, is in New York, while Secretary Heath is in Europe. Were these two officials of the national committee at hand the Kentucky men say all would be clear sailing, as they would never consent to any action which might allow Taylor to tell all he knows.

Delay Over Diplomatic Post.

Rome, April 16.—The post of Italian Ambassador at Washington has been offered to Marquis Carbonara di Malaspina, now Envoy Extraordinary and Minister Plenipotentiary to the Argentine Republic. Pending the receipt of his reply no action will be taken on a new appointment for Baron Fava, the present Italian Ambassador to the United States.

My heart and hand another claimed, His plea had come too late.

It's ever thus with people without pluck and vim.

Great Painter Dies in Paris.

Paris, April 16.—M. Wencelas Brzick, one of the greatest nineteenth century historical painters of any country, died today at noon at his residence, Rue de Ponthieu, Paris.

Descendants of Andrew House met at Kokomo, Ind., and learned his Maryland estate of \$300,000,000 is a myth.

Matt J. Johnson's Great Blood and Rheumatism Cure.

For That Lame Back... 6088 For That Rheumatism

(Sixty-eighty-eight.)

Wilmington, Ill., Jan. 3, 1901. Matt J. Johnson Co., West Superior, Wis.—Gentlemen: My wife for several months had been afflicted with an acute attack of rheumatism. Tried Mount Cemens (Michigan) medicinal springs and other health resorts, but found little if any relief. My attention was called to your GREAT BLOOD AND RHEUMATISM CURE, 6088, and she had scarcely used one bottle of the remedy when my wife showed rapid improvement. She continued the use of the medicine and when the third bottle was used, she was able to resume her household duties. I cheerfully commend the medicine to any one afflicted with rheumatism. Very Respectfully, DAVID FORSYTHE.

FREE TRIAL. We guarantee 6088 to be free from all opiates, salicylates, mercuries, iron, cocaine and all poisonous drugs. On taking half a bottle and you are not satisfied, return bottle and your money will be refunded.

A Tear for a Pain

Only expectant mothers, or those who have borne children, know the full meaning of these words.

Every woman should tell every other woman about "MOTHER'S FRIEND," that wonderful liniment that dispels all pain incident to childbirth. There is nothing like it.

JNO. S. MORTON, of Harlowe, N. C., says: "Too much can't be said in praise of 'Mother's Friend.' My wife used only two bottles before confinement and was in labor but twenty minutes. She is doing splendidly, thanks to 'Mother's Friend.'"

Sold by all best Druggists, or will be sent by express paid on receipt of price, \$1.00. Look entitled "Motherhood," containing interesting facts for all ages of the gentler sex, mailed free upon application. Send your friend's address.

COURT'S RULING ON HAWAII

Judicial Status of the Territory Is Determined.

FULLER ISSUES AN ORDER.

District Attached to Ninth Circuit of Court of Appeals—Inland Court Asked to Show Cause Why It Should Not Assume Jurisdiction.

Washington, April 16.—The United States supreme court, through Chief Justice Fuller, has issued an order granting leave to file a motion for a rule against the circuit court of appeals for the ninth circuit to permit the filing of an appeal in that court from a decision of the supreme court of Hawaii in the Wilder Steamship company case. The rule was made returnable May 13. Previous to this action a rule was promulgated attaching the territory of Hawaii to the ninth circuit, with headquarters at San Francisco. The action of the court in assigning the territory of Hawaii to the ninth judicial circuit and at the same time issuing a rule to the circuit court of appeals to show cause why it should not take jurisdiction of an admiralty case originating in Hawaii involves an interesting question relating to our new territorial acquisitions. The application in this case was made by Duane E. Fox in behalf of the Wilder Steamship company of Hawaii against Hind, Spreckels, and others. Under the act of 1891, organizing the circuit court of appeals, they were given jurisdiction in appeals from the supreme court of territories, and the supreme court was given authority to assign the territories to the several circuits. But the courts in the territory of Hawaii were organized by the act of April 30, 1900, on a different basis from other territories, and the same distinction was made in courts of a state as to writs of error and appeals, and the supreme court of the United States made no order assigning the territory. The act also provided that cases pending at the date of the organization of the territory should be carried on to final judgment and execution in the corresponding courts of the territory. It also established a district court, having jurisdiction of United States circuit and district courts.

Decision in Divorce Cases.

The court rendered three important decisions in divorce cases. The opinions were handed down by Justice Gray and involved the cases of Atherton vs. Atherton, Bell vs. Bell, and Streilwolf vs. Streilwolf. In the Athertons' case the husband obtained a divorce in the state of Kentucky, where they had resided as husband and wife, after the wife left the husband and gone to the home of her parents in Clinton, N. Y. In his opinion Justice Gray called attention to and laid stress upon the fact that Kentucky was the place of their marital residence, and he also brought out the fact that notice of the husband's petition for divorce had been forwarded to New York, and that she had made no response. The Kentucky court thereupon granted the decree. The question involved was, he said, whether the decree was valid in New York, the question having been raised by a counter proceeding of the wife for divorce in New York. He concluded that, owing to the fact of her former residence in Kentucky, and the fact that due notice had been given her, Mrs. Atherton was as much bound by the Kentucky decree as if she had been present in court when it was granted. Hence the decision of the New York supreme court in favor of the wife and against the validity of the Kentucky decree was reversed. The other two cases also came from New York.

Corbett Out of Pugilism.

New York, April 16.—Jim Corbett has made up her mind to quit the ring for good. He thinks he was cut out for an actor and will stick to that profession.

"I wish to announce to the public and my admirers all over the country," he said today, "that I will never fight again. This is on the level and no bluff."

Danish Cabinet to Stay.

Copenhagen, April 16.—Despite the rumors of the resignation of the Schested ministry, consequent upon the signal defeat at the recent elections, there will be no change in the cabinet for at least six months, and possibly a year, when elections for the landsting will be held.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1658 Milwaukee avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend to my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time which seemed to relieve her so quickly that I bought some myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by People's Drug Co., and King's pharmacy.

Postoffice Robbed.

Washington, Ind., April 16.—The postoffice here was robbed of \$650 in money and \$300 in stamps last night. The thieves overlooked \$2,000 in stamps and \$295 in money. The outer door of the safe was opened by knocking off the combination. The lock of the inner door was drilled into and broken. There was no clew to the robbers.

Do not leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed and cannot be procured while you are on board the cars or steamship. It is pleasant, safe and reliable. For sale by People's Drug Co., and King's pharmacy.

Barred in Colorado Schools.

ANTI-ROMANISM IS HIS CRY.

High Official Creates Trouble Over Ceremonies in English Church.

London, April 16.—Stormy scenes are expected to attend the ceremonial installation of the Rt. Rev. Arthur Winnington Ingram as bishop of London next Wednesday. John Kensit, the irrepressible crusader against "Romanism in the Church of England," objects to Dr. Ingram's confirmation on the ground of the new prelate's alleged leanings toward Catholicism. He accuses King Edward's appointee to the metropolitan diocese of fondness for masses, the confessional, incense, candles and "other ritualistic conspiracies."

Backed by a host of determined supporters Kensit will go to Bow church prepared to make trouble when the vicar general, in accordance with ancient custom, demands to know of the public whether there are any objections to the consecration of the new bishop.

Mr. Kensit said to the Daily News correspondent today: "The authorities have decided to overawe me by the presence of the archbishop of Canterbury at Wednesday's ceremony, though it was not originally intended that he should participate. They think that his personal popularity and the deference due him will quiet me, but it will not."

"Dr. Ingram's appointment was a scandalous outrage. A worse choice could scarcely have been made. The East London church fund, under his direction as bishop of Stepney has really been a fund for Romanizing the East End. We don't blame the king for making this appointment, which is merely another step in the systematic work now going on in England for the undoing of the reformation; we blame Lord Salisbury and the rest of the Cecil oligarchy. The prime minister and his friends are sorely taxing the patience of Protestant conservatives."

"If I cannot stop Dr. Ingram's installation I shall attack him in the law courts. I have evidence to prove that he has violated his Episcopal oath in numerous instances."

An official of the London diocese said today: "We expect the usual demonstration from Kensit on Wednesday, but the police will attend to him. He made a similar disturbance at the installation of the late bishop of London. Among the press and public of England there has been remarkable unanimity respecting the fitness of Dr. Ingram for the office to which he has been appointed."

Magnetic Healing.

A Health Restoring Treatment.

Prof. Funk's Success

In curing disease is evidenced by the steadily increasing demand for his services. Nature's powers of healing proves a blessing to chronic sufferers and brings health and strength to the weak. Many have given testimony of the benefit received and cheerfully tell what this mode of treatment has done for them. Will mention that of a lady over fifty years old. Has had stomach and bowel trouble and constipation for many years. Her head ached almost constantly, due to chronic gastritis; her bowels did not act without the daily use of purgatives. She says

"I am glad to say that I have taken Magnetic Treatment by Prof. Funk. I have taken but three treatments and can honestly say I have had more relief from headache and pain in my stomach since I commenced treatments, than I have had from all the medicine I have taken for years. I cheerfully recommend Prof. Funk's method to all who have been suffering as I had been."

MRS. HERMAN KREBS.

Janesville, Wis.
Prof. Funk treats all manner of disease, acute or chronic, without the use of drugs, surgery or mechanical appliance of any kind. Investigate this method of healing, it will cost you nothing and may mean health and strength for you. He treats all honestly, if he can not help you he tells you so and gives every one the benefit of examination and consultation absolutely free. There is nothing mysterious or superhuman about this method and he is always willing and glad to explain Magnetic Healing to any one interested and extends to the suffering a cordial invitation to investigate his method of healing. He has cured others, he can cure you. Office, opposite post office, 9 to 12 a.m. over McDaniels & Achterberg's tailor and furnishing store. 1:30 to 5 p.m. 7 to 9 p.m.
